

Physical Geography

photo competition

Theme

Landscape Story

This year's competition is about explaining the story behind the physical landscape; why it looks the way it does, how it was formed, the interaction of processes and the passage of time needed to create the scene in front of you.

To enter, submit a photograph of a physical landscape (perhaps from a field trip) and accompanying story to gapgphotocompetition.org.uk.

Landscapes can be big or small, but the story should reflect the scale of what you have captured.

You only have 250 words to tell the story of your landscape, so be concise and make sure you use geographical language. Your story should describe and interpret the physical geography that has created your landscape.

There are some examples, plus other tips for creating a good entry on gapgphotocompetition.org.uk.

Entries close on Friday 15 September 2017 at noon.

The competition is open to students in Years 7-13 during the academic year 2016-17. Entries will be judged on the photograph, enquiry question and description of the fieldwork investigation.

Prizes

Courtesy of Páramo Directional Clothing Systems (www.paramo.co.uk)

- | | |
|------------------|-------------------------------|
| 1st prize | Fuera Ascent Windproof Jacket |
| 2nd prize | Fuera Smock |
