

## The Geographical Association and Camrose Primary School

*'The CPD sessions with Jon have been eye-opening to reinventing the way we teach our new Geography curriculum.*

*He has managed to cover different topics for all Key stages with creative activities that would bring Geography to life and relate to our local area, which is exactly what we had hoped for from these sessions.*

*Only a week after our final session and so many changes have been made thanks to his ideas starting with our participation in the upcoming 'National Fieldwork Week'.*

*In addition to this he has restored the excitement and a new found confidence amongst our staff.'*
