

## The Geographical Association and Shropshire Local Authority

*'Rebecca is always totally professional, a strong advocate for the GA and has proved a worthy addition to our CPS associate deliverers. The following are comments taken direct from evaluation forms following network events led by Rebecca: 'Extremely well led in a consultative way. LOTS of ideas. Thanks', 'Excellent. Very useful', 'Very positive and productive', 'Nice to discuss geography in depth. I'm the only geographer in the school', 'More time – longer session required. First class'*

Graham Moore, CPD Commissioner and co-ordinator, Shropshire Local Authority

**Network aim and scope:** To bring Primary geography subject leads and Secondary Heads of Geography together to share good practice, resources, and developments within the subject.

**Developing the Network:** The GA delivers three Primary and three Secondary networks per year and there is also the option to run bespoke CPD days if the network requests them. Examples of discussion topics have included: the Ofsted framework and deep dive experience, sharing GCSE fieldwork resources and ideas and developing a bank of exam questions. The personnel have remained fairly static over the five years that the networks have been delivered by the GA, meaning that conversations can be developed over time and effective relationships built.
