Lesson three: Responses by sector - speech to the local government

Your local council are really struggling to understand why the responses to drought are so different for so many different sectors. You feel that the response for your sector is by far the most important. Write a speech to be given at the next local council meeting to convince the council as to why yours is by far the most significant. Use your knowledge of the other sectors to help you argue your case.

Your sector:_____
